

# Pricebook version 3

Requires: Moneyworks v8

## What it does

This Moneyworks script allows you to record and use a set of prices for each product or a group of products for each of your customers or a group of customers. Prices can include price breaks for different quantities.

## Installation

Double-click the script supplied by Sustainable Solutions. Once it is installed, PriceBookList icon will be available in toolbar of the Product table. To open Product table **Show>Product**

## Setting prices

1. Show the product list by choosing **Show > Products**
2. Click the **PriceBookList** button in the toolbar. You can see all the prices set for each customer or a group of customers for a product or a group of product in the list.

3.

Price Book List													
Customer Code   Product Code   Special Price   Qty Break1   Price Break1   Qty Break2   Price Break2   Qty Break3   Price Break3   Qty Break4   Price Break4   Expiry Date   Cus Group   Prod Group													
AUTUMN	Chrome	10									31/01/2038	1	2
BROWN	CA200	15	10	12	20	10	30	8	50	5	31/01/2038	1	1
North	Bronze	10									31/01/2038	2	2
WHITE	BC100	10	10	8	30	7	50	6	100	5	31/01/2038	1	1

4. Click **New** button in the toolbar
5. Select customer, if you are recording special price for particular customer and record customer code in the field next to that.

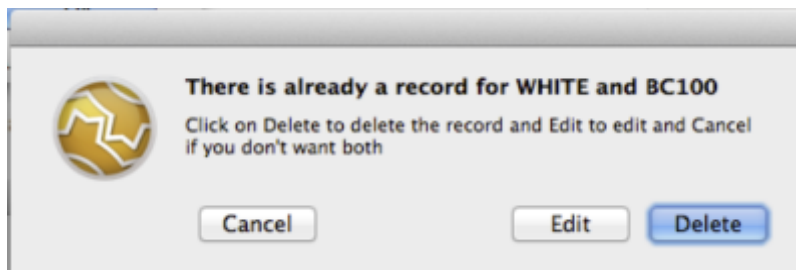

6.

7. Select customer for customer code and Group for customer group code. Customers are grouped by Customer Category 4.
8. You'll be alerted if you enter an invalid code, else if you enter a valid customer code and the values in the window are blank, you're adding a new product/customer combination. If values are already filled in, you're editing:

9.

1. You only have to fill in a price. Other fields are optional
  2. If there is no expiry date for the special prices, enter a date well into the future (e.g. 1/1/50) else it will take default future date. You can't leave it blank.
10. You will get an alert if the record is already in the price book. You can choose to delete or edit the record.

11.

## Viewing prices

1. To view prices for selected Items, select items in Items list and choose **Pricebook Product table** from the reports menu:
2. To view prices for selected customer, select Customers in Name list and choose **Pricebook for highlighted Customers** from the reports menu:

Price Book											
Customer Code	Product Code	Special Price	Qty Break1	Price Break1	Qty Break2	Price Break2	Qty Break3	Price Break3	Qty Break4	Price Break4	Exp Date
BSUPP	BA100	20	5	18	10	15	15	12	20	10	28/2/11
BSUPP	BA200	60	10	58	20	55	30	50	40	40	31/12/13
BROWN	BA200	65	5	60	10	50					30/11/10
BROWN	BA100	25	3	22	5	20	10	15			31/12/10
WHITE	BC100	22	2	20	5	15	10	9			1/3/16
BROWN	BC100	3.45	10	3.40	30	3.10	100	3.00			1/3/16

3.

## Using special prices

- There is nothing special you have to do. When entering a sales order or invoice, when you select a combination of custom and product that has special pricing, that pricing will be used. See the previous report example: customer "BSUPP" has a price of \$20 for the product BA100. The price is inserted automatically.

- If the quantity was increased to above a price break level, the price is updated to the relevant price you've specified.

If you change the product or name code of an item, the special pricing information will be lost. You will have to re-enter the information for any customer/item combinations that are affected.

This script uses Moneyworks' user2 table to store information
