

Per Customer Pricebook version 2

Requires: Moneyworks v7

What it does

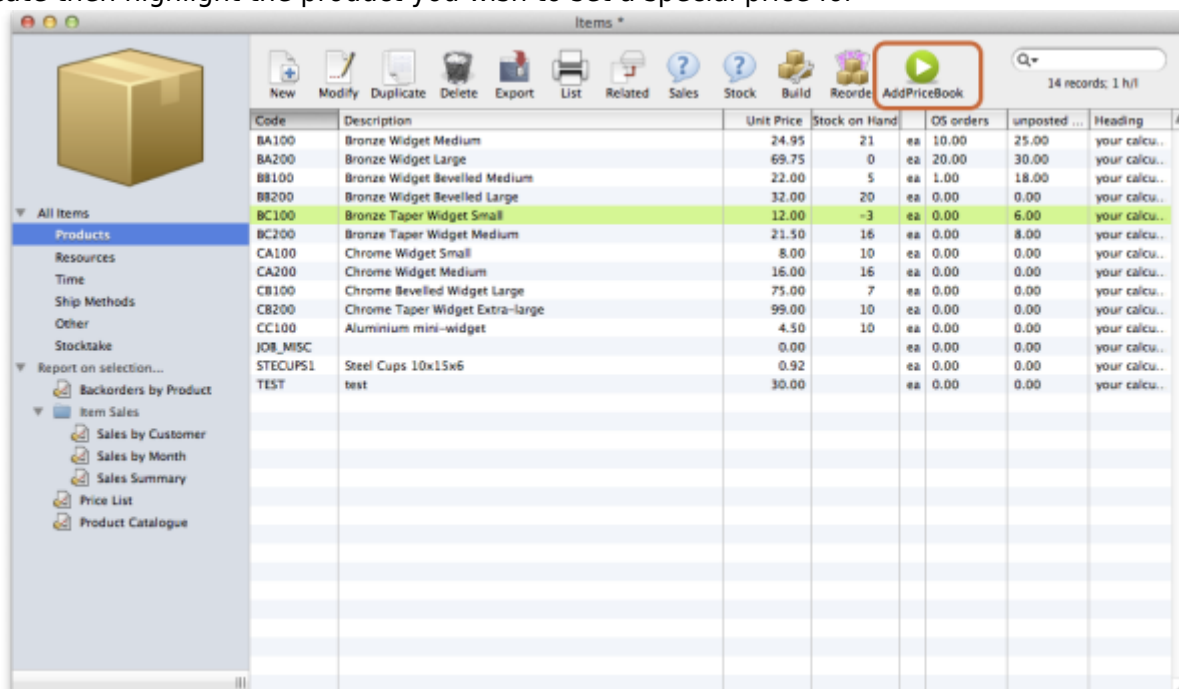

This Moneyworks script allows you to record and use a set of prices for each product for each of your customers. Prices can include price breaks for different quantities.

Installation

Double-click the script supplied by Sustainable Solutions. That's it. For viewing prices, you need to install the pricebook report we will supply you into the **reports** folder inside your **Moneyworks Custom Plug-ins** folder

Setting prices for a product

1. Show the product list by choosing **Show > Products**
2. Locate then highlight the product you wish to set a special price for

- 3.
4. Click the **Pricebook** button in the toolbar
5. If the values are blank, you're adding a new product/customer combination. If values are already filled in, you're editing:

6.

1. You only have to fill in a price. Other fields are optional
2. If there is no expiry date for the special prices, leave the field blank.

Viewing prices

1. To view prices, choose **Pricebook Report** from the reports menu:

Using special prices

- There is nothing special you have to do. When entering a sales order or invoice, when you

select a combination of custom and product that has special pricing, that pricing will be used. See the previous report example: customer "BSUPP" has a price of \$20 for the product BA100. The price is inserted automatically.
